A customer injured by a violation of those provisions is entitled to institute a civil action to recover damages, obtain injunctive relief, or seek other remedies.

This bill would require a person or entity conducting business in California that shares personal information with offices, affiliates, subcontractors, or subsidiaries outside of the United States to disclose to the customer specific information about the information shared, including the category of personal information, and country where the information is or may be shared.

~~Existing law provides that state agencies are required to prepare and submit an annual report to the Legislature or the Governor specifying the level of participation by minority, women, and disabled veteran business enterprises in specified categories of public contracts.~~

~~This bill would require state agencies to include in that report the level of participation by minority, women, and disabled veteran business enterprises in contracts for personnel services provided to state veteran's homes and hospitals.~~
